

Panel Handler

Ergonomically designed,
The Troll® model 112 saves
TIME, MONEY, & your BACK!

Make light work of hustling
drywall, plywood, and
other heavy building panels
around the job site.

model 112

Panel Handler

Ergonomically designed

Make fast, safe work of handling loads in tight quarters with the patented omni-directional design.

Easy to Use: Just tilt back The Troll® on the swivel caster, pull it away from the wall and you're off! Use the same tilting action to position The Troll® for easy off-loading when you reach your destination.

Hauls 4 sheets of 1/2" building panels, as well as banquet tables and solid core doors - that's a 250 lb capacity!

model 112
