

Reduce the Pain and Fatigue of Overhead Drilling...

Tired of this?

You need this!

Anyone who's ever done it can tell you that overhead drilling into concrete is punishing work. It's like doing a balancing act four to six feet off the ground holding a 50 lb. sandbag over your head while it leaks in your face.

Telpro Inc.® has a better way...

DFILLRITE™

Overhead Concrete Drill Press by Telpro Inc. USA

Protects Workers' Safety & Health
Improves Job Site Ergonomics & Productivity

- Easily mobile on job site
- Drill as close as 12" from walls

Patent Pending Multi-Fit Drill Cradle
Includes Integrated Dust Extraction
& Provides Superior Target Acquisition

- Reduces musculoskeletal strain associated with operating rotary hammer drills overhead
- Reduces risk of job-site falls by eliminating the need for ladders for overhead drilling
